## CONDITION OF MARKER/FOUNDATION, continued

### 1900-03 Resurvey notes

the upper portion of the monument having been broken off and removed. The position was located by the survey and the base was found in place, but owing to the adverse attitude of the owner of the ground, it was not thought expedient to replace the monument in the same position. The base was left in place and the monument next to be mentioned was established to take its place as a visible mark.

See M&D 40(43).

### NOTES

See M&D 40(43). We recommend official contact with surrounding property owner further research and survey to attempt to locate the unexposed base. If found, it could be utilized by the Historical Society of York County as a base for the top already in their collection, or recut to serve as a milestone(crownstone) at its original site or wherever appropriate--depending upon MD-PA policy. The present site of 40(43) is not suitable.
